

BULK MAIL SYSTEM

Bulk Mail Systems

TSC has been requested to install a variety of bulk mail transport systems. The bulk systems on our resume range in size from a 100 feet up to 20 thousand feet – belt widths from 24 to 42 inches. Included in the bulk system are various other components such as platforms (power panels, motors, maintenance access etc.), tilt tray sorting systems, container loaders/un-loaders, scales, and induction units. TSC has installed these systems in many cities around the country such as Columbus, Ohio, Portland, Oregon, Orlando, Florida, Seattle, Washington, Greensboro, North Carolina, Philadelphia, Pennsylvania, San Francisco, California, Chicago, Illinois and San Jose, California. Average contact value per project: \$800,000.
